PERSONAL STATEMENT

Software Engineer with hands-on experience designing, building, and shipping production-ready applications across web and mobile platforms. I specialize in full-stack development, with strong expertise in frontend engineering and growing depth in backend systems. I hold a B.Sc. in Physics from the University of Ibadan, which has sharpened my analytical thinking and systematic approach to problem-solving qualities I bring directly into software architecture and performance optimization. I have worked on multiple production-level applications involving authentication systems, real-time features, API integrations, and database design. and I enjoy owning features end-to-end while building systems that are reliable, maintainable, and user-focused.

TECHNICAL SKILLS

LANGUAGES:	JavaScript (ES6+) | TypeScript | Python | HTML | CSS
FRONTEND:	React | Next.js | React Native | TailwindCSS | Bootstrap
BACKEND:	Node.js | Express.js | REST API Design | Authentication (JWT, OAuth, OTP) | WebSockets
DATABASE:	MongoDB | PostgreSQL
TOOLS:	Firebase | Supabase | Redis | Git/Github | Linux/Unix | Docker | Vercel

PROFESSIONAL EXPERIENCE

2025 – Present **Frontend/Mobile Developer (Intern)** Extension Africa

- Built and scaled cross-platform applications with React and React Native, focusing on performance and user experience.
- Led refactoring efforts to improve code quality, maintainability, and overall application performance.
- Designed secure authentication while collaborating across teams to deliver production-ready features

2025 – 2026 **Mobile Developer** Play2score

- Built cross-platform mobile applications using React Native, focusing on scalable and maintainable architecture.
- Integrated Supabase for authentication, real-time data handling, and notifications to support core app functionality.
- Collaborated within a small team using Git/GitHub to deliver features efficiently and maintain code quality.

2024 – 2025 **Fullstack Developer & Project Lead** Branovax Technology

- Led a 3-member team to design and deliver client-focused web applications using Next.js with SEO best practices.
- Owned end-to-end development, building scalable solutions aligned with client requirements.
- Implemented secure authentication, real-time dashboards, and responsive, user-focused interfaces.

EDUCATION & CERTIFICATIONS

2021 – 2025 **Bachelor of Science, Physics** University of Ibadan, Nigeria

- Graduated with a strong foundation in Computational Physics, Data Analysis, and Mathematical Methods in Physics.

2023 – 2024 **Software Engineering (Backend Track)** ALX Africa

- Intensive programme covering systems programming, backend development and data structures.

2022 – 2023 **Frontend Web Development** FreeCodeCamp

- Built multiple projects including a personal portfolio, and a markdown previewer using HTML, CSS, JavaScript.

2025 – Present **National Youth Service Corps (NYSC)** Federal Republic of Nigeria

- Serving as a Software Engineer in Technology department, Extension Africa contributing to digital transformation initiatives.

PROJECTS

Branovax Technology	NextJS, TailwindCSS, Node.Js, PostgreSQl	Live Dashboard
Extension Africa Academy	NextJS, TailwindCSS, Moodle(PHP), Apache	Live Dashboard
Excel Exchange	Vite+React, React Native, TailwindCSS, Node.Js, MongoDB	Live Dashboard
Auth System API	Node.js, Express.js, Redis, PostgreSQl, JWT	Github Repository
Play2score App	React Native, Expo Router, NativeWind, NodeJs, Docker	Live App

INTEREST & OTHER ACTIVITIES

Blockchain & Web3: Active interest in decentralised finance (DeFi), smart contract development with Solidity, and building user-friendly dApp interfaces.

Physics & Computing: Background in physics informs strong interest in computational thinking and geophiysical surveying.

Open Source: Actively maintain personal repositories on GitHub; interested in contributing to open-source tools.

Community: Interested in developer communities and knowledge sharing especially in the tech ecosystem.
